

TERMS OF USE

Practicing together, with clear terms.

PairTalk | Document version 2026-10-07

Read this document before registering. In the Telegram bot, choose Agree and continue to accept this version, or Decline to stop registration. Your acceptance does not replace the separate agreement required for recording a call.

Acceptance and eligibility

By accessing or using PairTalk through the website, Telegram bot, or Mini App, you agree to these terms. If you do not agree, do not use the service.

You must be at least 13 years old, or the minimum age of digital consent in your jurisdiction. Users under the age of majority require parent or guardian permission. A valid Telegram account is required; you are responsible for its security. Creating multiple accounts or automated accounts to exploit rewards or rankings is prohibited.

You must also meet Telegram's [account eligibility rules](#). Where Telegram requires a higher minimum age, that minimum applies; guardian permission does not bypass it.

Peer practice and its limits

PairTalk connects learners for IELTS speaking simulations and conversational practice. Partners are peers. PairTalk does not issue official IELTS certificates or test report forms and does not guarantee any examination result.

Follow the community guidelines and safety guide. Harassment, hate speech, explicit content, commercial solicitation, automated abuse, and attempts to compromise the service are prohibited. Violations can result in warnings, temporary suspension, or permanent bans.

Payments & service conditions

Subscriptions, payments, and refunds

The service offers Free, Plus, Pro, and Boss plans. Current prices and allowances are shown before purchase. Supported methods include Telegram Stars and regional UZS card payments. Unused paid practice credits expire at the end of the 30-day billing cycle unless promotional terms state otherwise.

The current bot refund policy allows a request within 48 hours of purchase or when less than 10% of the purchased allowance has been used. Sanctioned accounts are excluded under the policy. Use /refund or contact support. See the refund policy for payment-specific settlement information.

Intellectual property and independence

PairTalk software, designs, logos, and algorithms are the platform's proprietary intellectual property. References to IELTS criteria and formats are for educational description.

IELTS is a trademark of its owners. PairTalk is not affiliated with, endorsed by, or sponsored by Cambridge, the British Council, or IDP. Official format and assessment information should be checked with IELTS.

Published policies: pairtalk.online/terms and pairtalk.online/privacy#refunds. The refund eligibility in this PDF reflects the current bot rule where older website wording differs. Current allowances and prices must be checked before purchase.

Privacy, recordings & support

Account and practice data

The service stores your numeric Telegram ID, generated alias, self-assessed bands and preferences, subscription status, and practice activity. Call metadata includes participants, timing, duration, status, ratings, and submitted feedback or reports. Payment records support billing and refunds.

Partners are shown your PairTalk alias rather than your Telegram contact information. The public statistics page exposes aggregate figures, not account identities, private comments, recordings, or payment details.

Voice calls and optional recordings

Voice calls use WebRTC transport encryption and media infrastructure. Transport encryption is not a promise of end-to-end encryption inaccessible to the media service.

Cloud recording is optional and requires agreement. Under the existing standard policy, Free recordings are retained for 1 day, Plus for 7 days, Pro for 30 days, and Boss for 90 days. Check your current plan and any account-specific retention settings in the app. Expired recordings are scheduled for deletion and cannot be restored after removal.

Availability and liability

PairTalk is provided "as is" and "as available," without warranties of any kind. The service is not responsible for the personal conduct, opinions, or statements of speaking partners, and provides tools to leave and report calls.

To the maximum extent permitted by applicable law, PairTalk's aggregate liability for claims arising out of or related to these terms shall not exceed the amount paid by the user to PairTalk in the three months preceding the incident.

Changes and contact

The service may amend its terms. Material changes are communicated through the Telegram bot or an updated terms page. Continued use after a change constitutes acceptance of the updated terms.

For account, billing, privacy, or terms questions, contact @PairTalkSupport.
